

## USING THE 150mm ADAPTER

**PART 1: Mounting the Jib to a 150mm Tripod.** *NOTE: This step and the hardware used in this step are not necessary when mounting to a 100mm receptacle like our Pedestal or Heavy Duty Tripod .*

- A: Remove the spacer from the base of the EZ Jib.
- B: Replace it with the black 150 mm Base Plate
- C: Screw in the longer shaft into the swivel base
- D: Sit the Jib on the 150mm tripod.
- E: Secure with the large washer and knob if necessary.

**PART 2: Mounting a 150mm head to the end of the EZ Jib.**

- A: Place the 150 mm adapter over top the 100 mm bowl on the end of the EZ Jib.
- B: Set the 150mm head into the 150 mm Adapter
- C: Use the Knob/Washer Combo to secure and level the 150mm head.,
